

September 19th 9.00-12.00

Creating Outstanding Early Years

Shonette Bason Wood

- **Permission To – An inspirational session giving all those working with children permission to teach in innovative ways.**
- **Squiggle Whilst you Wiggle – This session will focus on how to generate excitement for literacy, (with practical ideas) in both staff and children; striking a perfect balance between a play based and a formal curriculum, both indoors and out and all on a shoestring!**
- **Making Maths Magic – This is a successful kinaesthetic approach to teaching mathematics, which results in accelerated development of key mathematical knowledge and skills. This course leads practitioners through how to achieve 'outstanding' progress in mathematics through the Early Years.**
